Hatters' Troubles.
The hatters have settled their bill of prices for the summer. A reduction in the price per dozen for finishing hats has been accepted by the men. The introduction of improved machinery lessens the labor required on the part of the men, and the reduction in the price per dozen will not affect the wages the men will be able to earn. William Elliot, of the firm of Hampson & Elliot, says that if the men in the Watessing shops had full work, as in times past, they would be able to earn as large weekly wages as ever with less labor. Mr. Elliot says that if the men in the Bloomfield district had conformed to the conditions of the trade several years ago and not opposed the introduction of machinery, they would have had a great deal more work and earned just as good wages; that the men go abroad and work for less than they will at home.

The horse and wagon were found yesterday morning at Sire's Exchange stables, on Bridge Street, Newark, where the police had sent it. Two young men stopped at a Newark saloon the night before and asked a boy to hold the horse for them. He held it for an hour, and then told a passing policeman of the occurrence. The young men in the meantime had fled. The animal was in a jaded condition.
